Covid-19 Community outreach (April 24, 2020)	128
<b>Total</b>	<b>836</b>

# PADRINO PROGRAM

THE ROBERTO CLEMENTE HEALTH CLINIC

- We delivered school supplies and school uniforms to **44 children** of our *Padrino Program*.
- We currently have **36 Padrinos/Madrinas** in our program.
- We offered nutritional control to each child, including blood, urine and feces tests. Also, as a complementary form of nutritional control, vitamins and de-wormers were delivered to each child and their families.
- Monthly support continues to be provided to **11 kids** who have finished High School and are pursuing professional and technical careers.
- Some children in the program received visits from their sponsors thanks to our 2020 Wellness Weekend event.
- We continue to support special cases with means of transportation, special medicine and consultations with specialists in different hospitals in Managua.
- An agreement was established and consolidated with the *Fabretto Foundation* that will allow 3 young people from our *Padrino Program* to receive a full scholarship on a monthly basis.
- Educational and preventive talks were offered to all the children of this program and their families regarding *COVID-19* with the aim of avoiding spread and safeguarding lives.
- We also delivered hygiene kits and clothing to **22 children**.

# NUTRITION PROGRAM

THE ROBERTO CLEMENTE  
HEALTH CLINIC

- So far this year, we've delivered **238 packages** of food!
- Isabel Currey, a longtime supporter of our Clinic, donated **51 packages** in January and **60 packages** in March.
- Thanks to the constant support received from *Isabel Currey* and the *Santa Surf* team, we continue to expand the list of beneficiaries. We currently have **51 families** in our *Nutrition Program*.
- We are also working on a partnership with *Fabretto Foundation* to deliver *Mannapacks* on a monthly basis - this will be of great benefit to the families as it will complement what is already being delivered to them.
- At the end of January, *ANF* donated rice and beans which were distributed in March to all the families in the program.

# VOLUNTEERS PROGRAM

THE ROBERTO CLEMENTE HEALTH CLINIC

- In January, **3 international volunteers** with nursing background supported our Clinic team for a week.
- We currently continue to promote international volunteering which has been drastically affected by the socio-political crisis that started in 2018 – and also currently by the *COVID-19* pandemic.
- The activities of the local working groups (local volunteers) were carried out normally in the months of January and February; however, in the third week of March, the activities were suspended until further notice as a preventive measure for *COVID-19*.
- Also in January, we received the support of **66 local volunteers** during our Annual Health Fair!

# CLEAN WATER INITIATIVE

THE ROBERTO CLEMENTE HEALTH  
CLINIC

- Weekly delivery of free water bottles to **8 schools and 3 public health** posts continues. Communities such as Ojochal, Settlement, Limon 1, Limon 2, Las Salinas, Las Mercedes, El Higueral, and San Ignacio receive support through these public places.
- Our partnership with *Fabretto Foundation* will also include providing support to our *Clean Water Initiative*.
- Families living in the communities surrounding the Clinic continue to be supported with an efficient and quality service - currently **50 families** consume our treated water at a symbolic cost.
- Maintenance of the production, filling and packaging areas has been performed. In the third week of March, filter changes were made to the plant, and we currently provide clean water in optimal consumption conditions.

# HEALTHY EATING INITIATIVE

THE ROBERTO CLEMENTE  
HEALTH CLINIC

- Since 2016 until now, we have created **102 organic community gardens!**
- We continue monitoring the community lands where classes on bio-intensive gardens will be held this year.
- **25 organic gardens** were overseen and assessed to continue improving.
- In addition, site visits and meetings were held with families who will join us in a new cycle of organic gardens creation supported by *Tierra de Hombres Italia*.
  - We have completed the inscriptions to the new 2020 family gardens cycle with participants from four different communities.
