inventory and storage of prescribed and over the counter medicines.

In addition, we provided ambulance service for over 245 emergencies, for stabilization at the clinic and when necessary transportation to a hospital, often as hour or more away from the emergency.

And we held our annual Health Fair for the community offering many booths that offered free consultations and education, as well as food and activities for the children. About 600 people showed up from many different communities to be a part of this wonderful event.

Padrino Sponsor-a-Child Program - We have 67 children registered in the program from different communities, such as Limon 1, Limon 2, Canas de Garcia, Las Salinas, Virgen Morena, San Ignacio, Las Mercedes, El Asentamiento, among others.

Children are matched with volunteers who provide financial sponsorship of monthly healthcare and education costs. The sponsors are called "Padrinos" and they enable each child to have healthcare and a formal education.

The Padrino Program handed out uniforms and school supplies to each sponsored child. During the event, they also received physical examinations, laboratory tests, assessments of their nutrition and growth levels, and dental checkups offered by a volunteer from the ARTS (A Reason to Smile) organization.

The clinic also partnered with ANF to start a Nutrition Program to fight malnutrition. The ANF Program consists of providing "manapacks" to each child in

our Padrino Program, as well as providing grains, cereals and other food supplements to other members of the family. Overall, 46 families and more than 220 people will benefit from this great initiative.

Healthy Eating Initiative - Our enthusiastic gardner, Eliezer, was extremely busy taking care of our organic garden and teaching his valuable knowledge in basic gardening, soil enhancement, nutrition and natural pest control to the community on a daily basis. Through the use of drip irrigation and the arrival of the rainy season, he had our garden looking beautiful most of the year.

One of our goals was to teach members of the nearby communities how to grow their own food using the bio-intensive system (organic crops). As a result, we were able to start community gardens benefiting many people in the community - this includes the individuals who attended our workshops on bio-intensive system as well as their family members.

As part of the Healthy Eating Initiative, our beekeeping program is growing strong. We've had our challenges las year due to the drought phenomenon in the are for the past three years which directly affected the production of nectar, pollen adn resins.

We started with two hives and we are projecting to grow to ten hives.

Our beehives are currently solid and our plan is to multiply them little by little; however, our success is strictly linked to climatic behavior. The importance of promoting organic agriculture has special meaning for us and we are determined to Form 990, Part III, Line 4c - Program Service Accomplishments

continue our arduous efforts.

# Form 990, Part III, Line 4d - Other Program Services Description

Clean Water Initiative - A lot of what we treat at the clinic is the direct result of contaminated water. Most families in the community do not have potable water: Their wells are contaminated with bacteria from a nearby septic system or the water is too calcified.

We have made improvements to the process of washing, filing and storing of our purified water. In addition, we were able to make the necessary changes in structure and equipment to enhance the overall system performance.

With the new methods and tools, demand increased. People have begun to gain confidence in this initiative to alleviate the problem of access to clean drinking water in the communities of Tola. We conducted a survey in the area and were able to find out that about half the families in the area are interested in supporting the project and purchasing purified water from our clinic.
